California Winter Storms

As the recent storms move east and out of California, a dry, cold air mass will settle over tonight and last through Monday morning. Overnight temperatures will be very cold, but aren't expected to break any records. Saturday morning is expected to be the coldest although the rest of the overnight temperatures through the weekend will only be a few degrees warmer. Southern California will experience strong winds in the mountains, deserts, and coastal areas. Winds will gradually diminish tonight.

- An Incident has been created in Cal EOC for this event: 2016 December Statewide Storms

Significant Watches/Warnings

Despite the storms moving out of California, many flood warnings remain in effect due to the recent rain's impact to local river systems.

Flood Warnings remain in effect for 5 counties in California:

- Counties are: Butte, Glenn, Humboldt, Napa, Tehama

Flash Flood Watches remain in effect this morning for Southern California burn scar areas

State/Federal Agencies

- The Department of Water Resources Flood Operations Center (FOC) will remain on regular staffing patterns utilizing duty officer notifications after hours.
- The California Nevada River Forecast Center (CNRFC) will continue 24 hour staffing until tomorrow in response to the storms.
- American Red Cross (ARC) are working with local partners to assist counties when shelters or sandbag operations are needed.
 - Three possible shelter locations identified in the Lake Isabella area, Kern County.
 - Primary shelters have been identified and equipment staged in the Sand Fire and Fish Fire burn areas in Los Angeles County.
 - Shelter Teams are currently being alerted, formed and placed in an enhanced readiness posture.

Activations

- There are currently no Emergency Operations Centers (EOC) activated.

Deployments

- A Cal OES Inland Emergency Services Coordinator (ESC) has been deployed to Kern County due to possible burn scar flooding.

SITUATION SUMMARY

California Winter Storms (Continued)

County Preparatory Activities (Kern County):

- Kern County remains prepared to respond to post-storm needs.
- Will issue a Ready Kern (reverse 911) message to residents if needed.
- At this time Kern County will not be activating their EOC.

Missions

- Los Angeles County: LA County OEM has requested the use of 3 California National Guard (CNG) Armories for the homeless.
 - Pomona Armory – 600 S. Park Avenue, Pomona
 - West Los Angeles Armory – 1300 Federal Avenue, Los Angeles
 - Sylmar Armory – 12860 Arroyo Street (Foothill Blvd.), Sylmar
- Mission Tasking #2016-Southern-28876.

Infrastructure

- Utilities are in storm preparation mode and have pre-activated their storm response centers with core staffing.
- Utility outage websites indicate that there are no major power outages in the state.
- In Santa Cruz County PG&E has set up a micro base camp at Sky Park in Scotts Valley with equipment and staff to be ready if needed.

RIVER FORECAST

Cal OES Coastal Region

River Forecast - The following rivers are forecast to meet or exceed Flood stage today:

- Humboldt County: Eel River at Fernbridge
 - Potential Impacts: Significant flooding of the western portions of Cannibal Island Road, Camp Weott Road, the Salt and Old Rivers and all adjacent low-lying areas. Flooding in these areas is exaggerated when crest timing is coincident with high tides and strong onshore winds, and for longer duration events. A Special Action Advisory is being issued to all owners of livestock in low-lying areas of the Eel Delta. These animals are at risk due to rising river levels and appropriate action should be considered.

River Forecast - The following rivers are forecast to meet or exceed monitor stage this week:

- Del Norte County: [Klamath River at Klamath](#)
- Sonoma County: [Russian River at Guerneville](#)
- Solano County: Sacramento River at Rio Vista

Cal OES Inland Region

River Forecast - The following rivers are forecast to meet or exceed Flood stage today:

Tehama County:

- Sacramento River at Tehama Bridge
 - Potential Impacts: [Between 213.0 and 214.0 Feet the county park becomes inaccessible. Lower trailer park slots \(temporary slots\) start.](#)
- [Sacramento River at Vina Woodson Bridge](#)
 - Potential Impacts: [Woodson Bridge Park is closed due to flooding. Water is up to the top steps of the recreation center at Driftwood RV Fishing Resort on the east bank of the river.](#)

Glenn County:

- [Sacramento River at Ord Ferry](#)
 - Potential Impacts: [Designated flood stage. Design overflow level for M&T, 3BS and Goose Lake Flood Control facilities to divert flood flows into Butte Basin. M&T overflows closing River Road from Ord Ferry Road to Chico River Road. Ord Ferry Road is already closed.](#)

River Forecast - The following rivers are forecast to meet or exceed Monitor stage this week:

- Siskiyou County: Scott River at Fort Jones
- [Tehama County: Sacramento River at Red Bluff](#)
- Glenn County: Sacramento River at Hamilton City
- Placer County: Truckee River at Truckee
- Yuba County: Yuba River at Marysville
- Colusa County: Sacramento River at Colusa Bridge, Sacramento River at Moulton Weir, Sacramento River at Colusa Weir
- Sutter County: Sacramento River at Tisdale Weir, Sacramento River at Fremont Weir
- [Alpine County: West Fork Carson River at Woodfords, East Fork Carson River at Markleeville](#)
- Sacramento County: Cosumnes River at Michigan Bar, Cosumnes River at McConnell, Sacramento River at I Street

WEATHER OF CONCERN

Weather of Concern

- Cold near freezing temperatures for portions of Central and Southern California.
- High winds expected for Southern California today.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER SYNOPSIS BY REGION

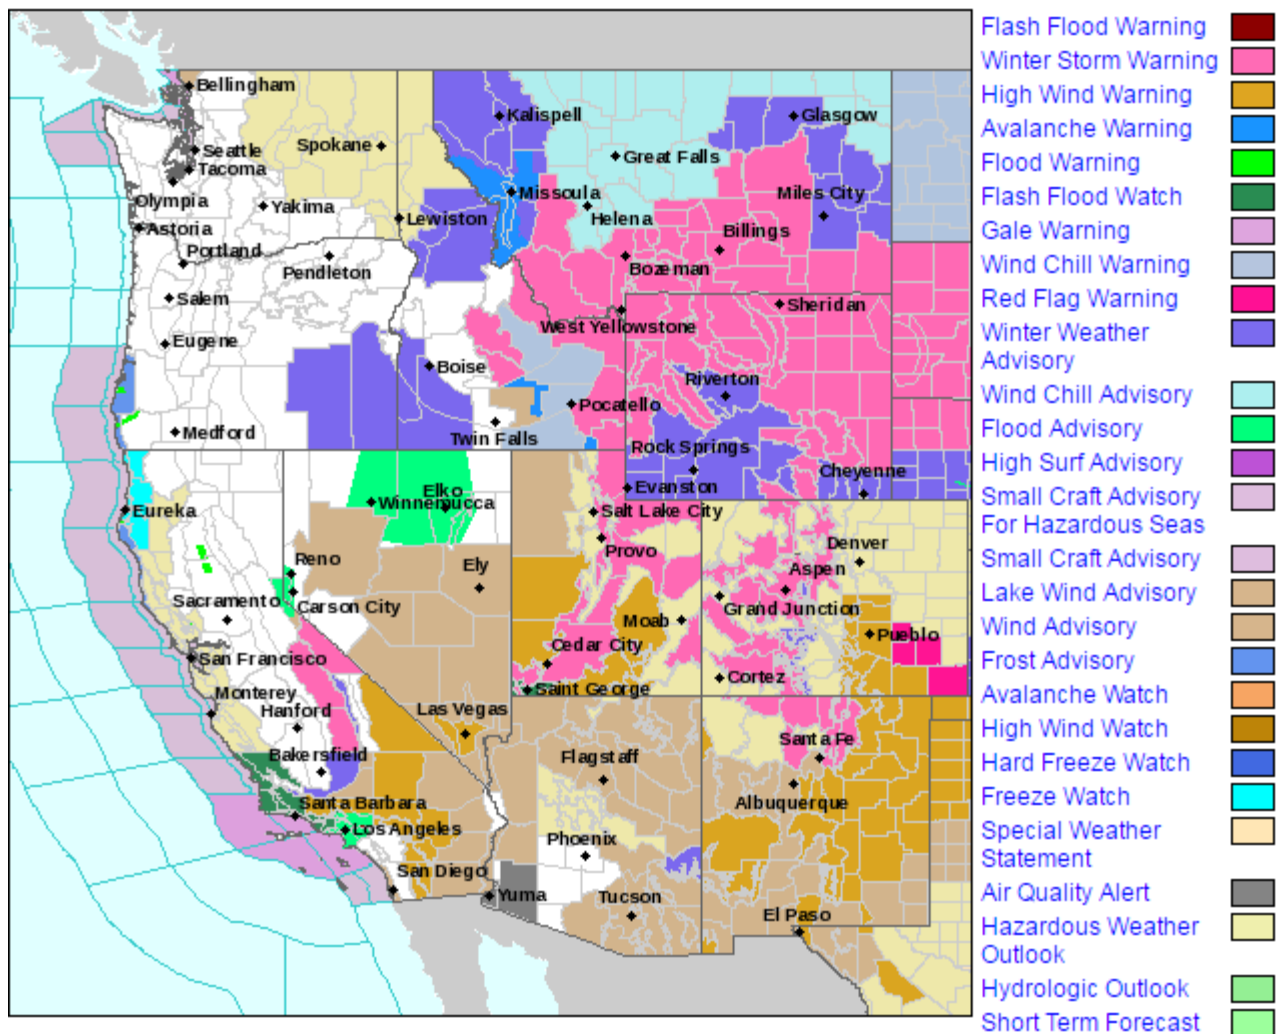

NORTHERN CALIFORNIA

Strong southerly winds will continue in some of our eastern areas into this afternoon and by this evening the greater Tahoe area is expected to be the only area left with them for tonight. In general, gusts of 25-40 mph will be quite common in the windy areas but locally quite a bit stronger at the higher elevations. Snow levels will be above 6000 feet in the north and 8000 feet in the south today. Much colder air will arrive tonight and tomorrow after most of the precipitation is done, so any lingering showers could bring some light snow accumulations to as low as 1200 feet in the north and 4000 feet in the south today. Most of the showers are expected to be light and over the northern and eastern mountains. Warmer, dry weather will be in all areas Saturday through Monday. Under clearer skies likely to occur over the weekend and early next week, there is a good chance areas of dense valley fog will form overnight and linger into the morning hours. Next Tuesday and Wednesday another weak system may bring more precipitation to the region, but there is a lot of uncertainty yet about the timing and strength of this system.

SOUTHERN CALIFORNIA

Widespread and significant wetting rains are expected today through tomorrow as a storm system moves ashore during the next 24 hours. The storm will produce gusty surface winds which will focus the highest precipitation totals on the mountains and foothills. Currently, the heaviest rain is located over the northern part of the state with lighter rain occurring over Central California. Expect the heavier rain to move into Central California this afternoon while the region remains partly cloudy and cool. As the cold front sweeps southward, expect a period 4-6 hours of moderate to occasionally heavy rain to accompany the passage of the system. The cold front will reach Santa Barbara and Ventura Counties this evening before heading south into Los Angeles and San Diego Counties overnight. Southwest winds of 15-25 mph can be expected in Central California today with gusts to 60 mph in the Sierras. South winds of 15-30 mph will develop over the region tonight. In all, expect over 4 inches of precipitation in the Sierras, 2-4" along the central coast and 1-3" over south aspects across the region. The snow level will be around 8,000 feet with 1-2 feet of snow possible in the Sierras. The precipitation should turn to showers over most areas by tomorrow morning. Gusty north winds of 20-30 mph will be possible Friday into Saturday over many passes of the region. A cold, but weak, offshore wind event is expected next Sunday and Monday. Temperatures will remain well below normal through Monday, but a warming trend is expected during the second half of next week.
